

## Four Metal Trade Fairs together:

### wire Russia, Tube Russia, Metallurgy Russia and Litmash Russia held at Moscow in June 2017

Innovative technologies all in one place, short distances for visitors, valuable synergies for decision-makers: from 5 to 8 June 2017 the Russian metal trade fair quartet wire Russia, Tube Russia, Metallurgy Russia and Litmash Russia will be held together at the Moscow trade fair location Krasnaya Presnya.

The trade fair quartet is organised by Messe Düsseldorf GmbH, Messe Düsseldorf Moscow and the Russian partners Joint-Stock Company VNIKP for wire Russia and Metal Expo for Tube Russia, Metallurgy Russia and Litmash Russia.

Despite the sustained global steel crisis and dwindling oil prices as well as a tight economic situation overall in Russia, expectations for the trade fair quartet are high. Now it is of particular importance for both international and Russian companies to “fly their flags” and place their products on the Russian market. Furthermore, many international exhibitors are expected in Moscow to intensify existing business relations and make new contacts.

In 2015 exhibitors rated trade audience quality positively and the conversations held at the stands were conducted with visitors with high decision-making powers. The trade visitors primarily originated from Russia, other CIS states as well as neighbouring European countries.
