

“Jointly with our proven partners including the state of North Rhine-Westphalia, German Statutory Accident Insurance (“Deutsche Gesetzliche Unfallversicherung - DGUV), the Federal Working Group of Self-Help Organisations for People with Disabilities, Chronic Diseases and their Relatives (“Bundesarbeitsgemeinschaft Selbsthilfe” - BAG SELBSTHILFE e.V.) and the children’s rehabilitation network rehaKIND, to name but a few, as well as numerous international exhibitors we consistently continue our commitment to an inclusive society,” explains Hannes Niemann, Director REHACARE.

Innovative forums: exchange on a level playing field

In 2025 special focus will be on the successful expert forums that promote knowledge transfer, dialogue and participation through powerful formats thereby further strengthening REHACARE as a marketplace of ideas and future lab.

- **Product and News Forum:** companies will present their latest developments – accompanied by expert lectures and panel discussions.
- **Community Forum:** personal stories will be centrestage – stories of people who have overcome challenges with innovative and inclusive solutions. These include EDM artist *Luca Veda*, activist and inclusion influencer *Ayleen Caterine*, paralympic athlete and speaker *Moritz Brückner* as well as influencer and activist *Sabrina Lorenz*.
- **Meeting point REHACARE Forum: shaping the future in specialist medical retail:** In cooperation with trade journal *Gesundheitsprofi* REHACARE will also present a future-oriented programme that selectively targets specialist medical and orthopaedic retailers. Practical insights in new lines of business, digital marketing strategies and innovative care concepts will be in

About REHACARE

REHACARE is the leading international trade fair for rehabilitation, prevention, inclusion and care. For over 40 years it has brought people with disabilities, chronic diseases and in old age together with solution providers, start-ups, association and political, healthcare and scientific decision-makers. Under the guiding theme of “**Self-Determined Living**” it is synonymous with technology, social and digital innovations that enable participation and reduce both physical and mental barriers.

As an innovation platform REHACARE shows which products, services and societal impulses are required today and in future to actively co-shape an inclusive society. With its international reach – complemented by events such as **REHACARE CHINA** in Suzhou – the trade fair sets global standards for shaping a barrier-free future.

The organiser is Messe Düsseldorf GmbH. For more information go to: www.rehacare.de
